1. Permits, Change, Transfer, Renewal, Sale

Permit Special Conditions:

- (1) Submit water quality into EDI site. Condition being met monthly.
- (2) Co-Op will not initiate coal mining and reclamation operations on federal leases UTU-61048, UTU-61049, UTU-46484, and UTU-24316 until federal mining plan approval is signed by the Assistant Secretary of Land and Minerals for this mine plan modification. Condition met, approved July 3, 2007.

2. Signs and Markers

The Mine ID had not been replaced or modified to show the requirements of page 5-8 of the approved mining and reclamation plan (MRP) upon the beginning of the partial inspection. Spoke to Shawn Baker and Nathan Finley from the company about the sign and its state of non-compliance with the MRP and the Coal Rules. The company representatives were given until the end of the partial inspection to bring the Mine ID sign into compliance with the approved MRP and the coal rules. Upon completion of the inspection a new ID sign had been constructed that satisfies the MRP and the coal rules, therefore no compliance was taken.
